

### **Language & Communication**

Use language to express, connect, and build shared understanding.

- Decode and comprehend words and texts
- Write clearly with correct conventions
- Speak and listen to share understanding
- Express ideas creatively through language
- Communicate to inform, persuade, or inspire

### **Critical Thinking & Problem Solving**

Think deeply, ask questions, and solve problems with purpose and insight.

- Ask questions and define challenges
- Analyze information, patterns, and causes
- Develop and test creative solutions
- Evaluate evidence, perspectives, and ethics
- Reflect to improve decisions and outcomes

### **Social-Emotional Growth**

Build emotional intelligence, empathy, and strong relationships.

- Understand and manage emotions
- Build healthy, respectful relationships
- Practice empathy and navigate conflict
- Develop self-awareness and confidence
- Show kindness, compassion, and respect

### **Community Action & Leadership**

Develop the mindset and skills to engage with and improve the world around you.

- Engage with local and global issues
- Act with responsibility and integrity
- Contribute to your community
- Collaborate across differences
- Advocate for equity and change

### **Student Agency & Self-Direction**

Take ownership of your learning and growth.

- Take ownership of your learning
- Set goals and monitor progress
- Work independently and follow through
- Adapt to challenges with persistence
- Reflect to grow and improve

### **Playful Exploration**

Learn through joy, creativity, and open-ended discovery.

- Play freely to explore and imagine
- Try new things with curiosity
- Learn through movement and materials
- Connect through games and humor
- Make space for wonder and joy

### **History & Culture**

Understand the past, explore identity, and engage with the world.

- Explore events and leaders
- Understand cultures and identities
- Recognize injustice and change
- Engage with current issues
- Build empathy across differences

### **Everyday Math & Data**

Apply math to solve problems and make sense of the world.

- Use numbers in real-life situations
- Identify patterns and relationships
- Measure and compare size and time
- Create and interpret graphs and charts
- Analyze data to make decisions

### **Science & Sustainability**

Explore the natural world and take action to protect it.

- Explore the natural world and systems
- Ask questions and investigate scientifically
- Understand environmental change
- Connect people, science, and the planet
- Act to protect Earth's future

### **Digital & Media Literacy**

Navigate the digital world with curiosity, safety, and critical thinking.

- Spot misinformation and digital bias
- Stay safe and protect privacy
- Understand digital tools and AI
- Manage your digital identity and footprint
- Use technology wisely and with balance

### **Research & Information Literacy**

Investigate the world with curiosity, ethics, and clarity.

- Ask questions and plan research
- Find and evaluate reliable sources
- Credit creators and respect ownership
- Organize information to support ideas
- Share findings clearly and creatively

### **Innovation & Design**

Build, create, and solve problems through design thinking.

- Explore how things work and why
- Solve problems step by step
- Create with tools and technology
- Test ideas and improve them
- Design solutions for real-world needs

### **Real-World Readiness**

Prepare for life, work, and learning in and beyond the classroom.

- Build habits for life and work
- Follow directions and finish tasks
- Use tools, tech, and systems
- Manage time and responsibilities
- Make smart choices about goals

### **Everyday Skills & Wellness**

Develop practical skills for personal well-being and daily life.

- Care for your body and mind
- Use tools for daily tasks
- Handle food safely and responsibly
- Keep spaces clean and organized
- Build strength and coordination

### **Creative Arts & Expression**

Explore identity, ideas, and emotions through creative practice.

- Express ideas through art and design
- Build skills through creative practice
- Appreciate diverse art and artists
- Collaborate in artistic experiences
- Reflect to grow as a creator
